What's in this sample

Three real pages from the full packs

Thanks for downloading. This sample has one page each from the **A320 Family Identification Charts**, the **A320 Family Spotter's Field Log** and the **Junior Jet Engineers Activity Pack**. Every fact is checked against a named source, listed on the last page.

PACK	FOR
A320neo Reference Guide	Adult enthusiasts
A320 Family Identification Charts: neo vs ceo	Spotters, adults and teens
A320neo Engines & Sharklets Fact File	Teens and adults
A320 Family Spotter's Field Log	Plane spotters
Frequent Flyer's A320neo Cabin Guide & Trip Journal	Frequent flyers
Junior Jet Engineers Activity Pack	Children aged 8 to 12

The full packs are at a320neo.aeroplanes.im/shop/.

The first A320 made its maiden flight on 22 February 1987 from Toulouse-Blagnac, France. It lasted 3 hours and 23 minutes.

FROM THE IDENTIFICATION CHARTS

Type codes

The surest clue, on a tracker or departures screen

CODE	AIRCRAFT	NEO OR CEO?
A19N	A319neo	neo
A20N	A320neo	neo
A21N	A321neo	neo
A318	A318	ceo
A319	A319 (ceo)	ceo
A320	A320 (ceo)	ceo
A321	A321 (ceo)	ceo

Source: FAA type designators (checked 29 Oct 2026).

- On flight trackers and flight plans the neo models have their own designators: A19N (A319neo), A20N (A320neo) and A21N (A321neo). (checked 29 Oct 2026)
- The earlier models are simply A318, A319, A320 and A321, so 'A20N' rather than 'A320' on a tracker means a neo. (checked 29 Oct 2026)
- Airbus has offered Sharklets on new-build A320 Family aircraft since December 2012, and all neo family members have them as standard.
- Sharklets are also available on new-production ceo aircraft and as a retrofit, so a Sharklet alone doesn't prove you're looking at a neo.

FROM THE SPOTTER'S FIELD LOG

Sightings

Date, airport, registration, code, wingtips and engine

Tips = S for Sharklets, F for wingtip fences. Every neo comes with a choice of two engines: the CFM International LEAP-1A or the Pratt & Whitney PW1100G-JM geared turbofan (GTF).

FROM THE JUNIOR JET ENGINEERS PACK

Secret messages

Each number is a letter: A = 1, B = 2 ... Z = 26

A 1	B 2	C 3	D 4	E 5	F 6	G 7	H 8	I 9	J 10	K 11	L 12	M 13
N 14	O 15	P 16	Q 17	R 18	S 19	T 20	U 21	V 22	W 23	X 24	Y 25	Z 26

Message 1: 14 5 23 / 5 14 7 9 14 5 / 15 16 20 9 15 14

Message 2: 19 9 4 5 19 20 9 3 11

A slash (/) means a new word. Message 1 is what 'neo' stands for; message 2 is what A320 pilots steer with.

The full pack has the answer key, plus a crossword, spot the difference, label the jet, colouring, a fan-measuring challenge and a certificate.

Credits, licence & help

The small print, kept short

YOUR LICENCE

Thank you for buying from REALLYBYTE. This file is for **your own personal use**: print as many copies as you need for yourself and your household. Please don't resell it, re-upload it or share it publicly. For club, school or commercial use, please email info@reallybyte.com.

All drawings, charts, puzzles and layouts are REALLYBYTE's own original work. Aircraft drawings are generic and unbranded: not scale plans, not copied from any manufacturer drawing, and in no airline's colours.

WHERE THE FACTS COME FROM

Every fact in this pack was checked against the source pages below on 29 Oct 2026. Figures that can change are marked "(checked 29 Oct 2026)" where they appear. Where sources give different figures, we show each one with its source rather than picking one.

Not affiliated with or endorsed by Airbus or any airline, nor by CFM International, Pratt & Whitney, EASA or the FAA. Airbus, A320, A320neo, A321XLR, Sharklet, Airspace, LEAP, GTF and other names are used only to identify the aircraft, engines and organisations discussed; they belong to their owners. All aircraft pictures are our own generic, unbranded drawings: not scale plans, not copied from any manufacturer drawing, and not in any airline's colours.

NEED HELP?

Useless can't help (he's an eraser, and he's busy rubbing out the bits he got wrong), but we can. Problems with your file, or spotted something we should fix? Email info@reallybyte.com.
